

Medicated Lip Treatment Fights Germs to Keep Lips Healthy

Developed by a dentist for his patients, this clear, lightweight gel fights germs to keep lips healthy when used on a daily basis and helps speed the healing of cold sores during outbreaks.

Make sure your patients know the cold sore triggers such as:

- Stress
- Sun Exposure
- Trauma (including during dental procedures)

Be Prepared

Offer your patients OralProCare medicated lip treatment at every visit to prevent future outbreaks.

Easy Revenue for You

OralProCare medicated lip treatment is an easy add-on in both check-ups and dental procedures.

Benefits:

- Reduces unwanted bacteria to maintain health of lips
- Protects lips from germs that can worsen cold sores
- Clear, lightweight gel
- Leaves no visible residue; won't interfere with lipstick or other cosmetics
- No strong or medicinal smell
